PROTECTION FOR YOUR CLOTHES

All AEG machines have our ProTex gentle drum, specially designed to take care of your clothes. Gentle water jets lift and protect your laundry as it washes. With more holes than standard machines, our drum reduces the stretching of fabric, maintaining the shape and texture of clothes during spin

Inverter motor for a longer lifetime

The inverter motor in this appliance works without brushes and at a cooler temperature. The advantage is that this extends the working life of the motor, ensuring it can continue to deliver the same silent performance for longer.

CHOOSE THE RIGHT TIME TO WASH

Delay Start gives you the freedom to do your washing at the time you prefer by allowing you to automatically set the start time of your washing cycle.

Convenient loading and unloading with extra-large door opening

The extra-large door opening in this washing machine makes it much easier to load and unload your laundry, even when you're washing bulky items such as pillows, sheets and duvets.
