

Dry at low temperatures for great results while saving energy costs

Dry your laundry efficiently and effectively with the SimpliCare tumble dryer. Our energy-saving heat pump technology uses lower temperatures compared to standard models, so clothes keep their shape and last longer. For confident tumble drying.

Product Benefits & Features

A++ for energy-efficient drying

The heat pump technology in our tumble dryer uses less energy than traditional dryers. Its A++ rating means it will keep your energy bills down while drying clothes quickly and efficiently. And because it runs at lower temperatures, your clothes will last longer.

Reversible door for fitting flexibility

Our tumble dryer's reversible door means it will seamlessly fit into your kitchen. The handle can be installed in two different positions, for easy opening and closing. Specially designed to fit with your other appliances.

- Heat pump technology achieves unprecedented energy efficiency
- Sensor dryer: the dryer senses when the clothes are dried to the level specified
- Additional time controlled drying programs
- Cotton programs: Cupboard dry, Extra dry, Iron dry
- Synthetics programs: Cupboard dry, Extra dry
- Special drying programs: Bedlinen, Cotton Eco, Easy Iron, Jeans, Mix, Silk, Sport, Time, Wool
- Reverse tumble action loosens the clothes and prevents tangling and creasing
- Display type: Digit and LED
- Delay start option
- Drying status indication for: Drying, Cool down, Anti-crease/end
- Indications for: Filter, Tank, Condenser
- Condense tank position and capacity: Panel left recycled, 5.28 l
- Feet: 4 adjustable feet
- Full load capacity: 8,0 kg
- Door hinge: Left reversible by user

Convenient drying with Delay Start

With the Delay Start function, your tumble dryer will work around you. Easily adjust the start of the drying cycle to suit your schedule - just enter the time and let the machine do the rest.

Product Specification

Product Installation	Free_Standing	Depth mm	623
Product Typology	Full_Size_Condense_Heat_Pump	Drum volume	118
Product Classification	Performance	Full load capacity kg	8,0
Installation	FS	Cabinet material	Steel
Drying technology	Heat pump	Drum material	Zinc
Cabinet type of	BF Sahara 60	Tank position	Panel left recycled
Design family	Aquamarine	Tank capacity	5.28
