

EGT6242NVK BI Hob

The power of gas meets the beauty of glass

This sleek gas-on-glass hob combines the precision and efficiency of a gas flame with glossy, elegant and easy-to-clean ceramic glass - a unique design experience.

A natural movement, all the way from low heat to high

At the front of this hob are the rotary control knobs. They're designed to be easy to twist and turn when you change the power levels of your hob.

A new level of flexibility for using pans of different sizes

Because this hob has three different sizes of burner, it gives a new level of flexibility for using your different-sized pots and pans more effectively.

More Benefits :

- Automatic hob ignition allows you to get started without delay
- Automatic gas cut-off – a practical solution for peace of mind
