

### Your everyday, washed with care

Our excellent PerfectCare 600 washing machine with SensiCare System adjusts the length of the programme to the size of the load, using less energy and water and preventing any item from being washed for too long. Enabling the most economical cycles for even your smallest loads.

## Product Benefits & Features

### Tailored washing means perfect results with SensiCare

Our SensiCare system automatically adjusts the programme's settings to suit the size of the load. Smart sensors reduce the time, water and energy used, meaning even small loads are washed with precision. For an effective clean without any risk of wear and tear.

- 52 l / 0.963 kWh for standard programme

### Every fibre reached, every item softer

Our SoftPlus Option pre-soaks and distributes clothing evenly. Ensuring every fibre is reached and that every item in the load feels soft and smells fresh for longer.

### Add steam for truly clean

The AntiAllergy Vapor 60°C washing programme provides steam at the end of the cycle, to give your clothes a hygienic and efficient clean. This helps reduce bacteria and allergens from your clothes, and supports better laundry hygiene.

### Less energy, more time

Our Eco TimeManager let you adjust the length of the wash cycle to the time you have available. Saving you both time and energy with absolutely no compromise on the thorough wash your clothes receive.

### Clean clothes when it's convenient

Adjust the start of the cycle to suit your schedule with the delay start function in the washing machine. The laundry will be ready to unload when you are ready to unload it, keeping it as fresh and as fragrant as possible. It's the most convenient way to clean.
